ABOUT THE COVER—The first lowa State Fair was held in Fairfield, lowa, in 1854. About 500 livestock were exhibited that year. From its beginning in Fairfield, the Fair moved around the state, locating in Muscatine, Oskaloosa, lowa City, Dubuque, Burlington, Clinton, Keokuk, Cedar Rapids and finally moving to Des Moines in 1879.

Today the lowa State Fair is the heartbeat of America-unique, unequalled and unduplicated anywhere. It has grown into the "world's largest livestock exhibition" where 14,000 head of top quality livestock were shown in 1976. It has a solid reputation for also being the "best" agricultural exposition in the country. Every year the Fair continues to serve... to educate... to entertain... to encourage the individual. lowa people will keep it going, growing and doing it better and better in the challenging years ahead.

1. "Party line" means a subscriber's line telephone circuit consisting of two or more main

telephone stations connected therewith, each station with a distinctive ring or telephone number.

2. "Emergency" means a situation in which property or human life are in jeopardy and the prompt summoning of aid is essential.

lod em tower

summoning or aid is essential.

Section 2. Any person who shall intentionally refuse to relinquish immediately a telephone party line or public pay telephone when informed that such line or telephone is needed for an emergency actually existing in Section One of this act, for use in calling a fire department or police department, or for medical aid or ambulance service, shall be fined not exceeding one hundred dollars or imprisoned in the county jail not exceeding thirty days.

Section 3. Any person who shall secure the use of a telephone party or public pay telephone by falsely stating that such line or phone is needed for an emergency call shall be fined not exceeding one hundred dollars or be imprisoned in the county jail not exceeding thirty days.

how to save money

Telephone people want to provide you with telephone service that fills your needs. So we've put together the following tips to help you choose good telephone service at the lowest possible cost.

HOW TO SAVE ON LONG DISTANCE

call station-to-station. This type of long distance call is lower priced than person-to-person. Call station-to-station when you're reasonably sure the person you want to talk to will be there or you'll talk to anyone who answers. (This includes answering machines.)

dial it yourself. You'll save money by dialing long distance calls yourself. They cost less than operator-assisted calls, and are faster, too. Direct dialing rates also apply on station calls placed with an operator where direct dialing facilities are not available.

call when rates are lower. Call long distance on week nights and on weekends for lower rates. Higher rates are during business hours on weekdays.

call on holidays. Rates are cheaper on some holidays. You can take advantage of the lower holiday rate by calling on New Year's Day, July 4th, Labor Day, Thanksgiving and Christmas Day.

schedule your calls. If you schedule your long distance calls in advance, your friends or relatives will be expecting your call. Then you can call station-to-station instead of person-to-person. Dialing station-to-station can cost less than half as much as calling personto-person.

plan your conversation. Decide what you want to say and jot it down before you call. That way, you'll be able to cover everything in less time. You can avoid repeating things by having family members listen in on extension phones.

don't pay for wrong numbers. If you dial a wrong number, call the operator right away to make sure you're not charged for the call.

report bad connections. If you have a bad connection, hang up and call the operator. The operator will see that you get a better connection and adjust the charge so that you won't be billed for the time your call was interrupted.

check your directory. Before making a long distance call to a business in another town, check your phone book to see if the business has a toll-free number. If they do, you'll save yourself the price of a long distance call.

OTHER TIPS

vacation aid: If you're going to be away from home for a month or more, you can save money by temporarily suspending your Northwestern Bell telephone service. The rate for suspended service is lower than most regular rates, and you can have your calls transferred to another number. There is a \$10 charge to restore your service when you return home.

pay phone refund: If one of our pay phones keeps your dime and doesn't give you a call, please jot down the number of the offending phone and report it to the operator. We'll mail you a refund and have the phone fixed as soon as possible.

bill problems? It's always a good idea to check your phone bill before you pay it. If you have a question about your bill, call the business office. A service representative will help you solve the problem.

additional telephone books If you need an additional telephone book, contact the business office. There is no charge for local books or for individual copies of books for other lowa communities. Telephone books for communities in other states are available for a charge. Supplies may be limited. For more information, contact the business office.

directory listings With your basic telephone service, you receive a primary listing in the White pages of your phone book. You can list one name in the book, or two people with the same last name and phone number can be listed together in the directory without an additional monthly charge. When you call your service representative at the Business Office for a move or change in your phone service, ask about your choice of listings. If you call to change your listing only, there is one-time service order processing charge. To make you easier to find, you may want to consider an additional listing for members of your family, or extra dual listings for those with the same surname.

types of long distance calls

Bill to Third Number

Customers may place calls and transfer the charge to another telephone. This service requires "OPERATOR" assistance to record the number to be billed. The call may be either station-to-station or person-to-person.

Collect

You may call "collect" if the person or firm you are calling will agree to pay the charges. If you want to call collect, be sure to tell the operator when placing the call.

Credit Card

Customers who have Bell System Credit Cards may place calls and charge them to their credit card numbers. These calls require "OPER-ATOR" assistance to record the credit card number and may be station-to-station or person-to-person. Customers may apply for a credit card by calling their local Business Office.

Mobile and Marine Service

You can make local and long distance calls to automobiles, trucks, aircraft, boats and ships equipped for telephone service. Some of these calls can be completed by dialing, while others must be placed through the Operator. For information on other communications common carriers, consult the Yellow Pages under the headings of "Paging and Signaling" and Radiotelephone Communications."

Overseas

You can call practically any telephone in the world from your phone. Tell the operator you want to place an overseas call and give the name of the country you are calling.

Bermuda—You can now dial your own station-to-station calls direct to Bermuda. Just dial "1", then area code 809 and the telephone number.

Person

Call "person" if you want to talk to a particular person or extension. Rates are higher than for a station call and also apply when you talk to an alternate person or extension. Charges start when conversation begins.

Station

Call "station" if you will speak with anyone who answers. Lowest rates apply on station calls. Charging starts when the called telephone is answered. (This includes answering machines.) If you cannot dial direct, dial "OPERATOR." The same "dial-it-yourself" rates will apply.

Time and Charges

Customers, when placing calls, may request from the "OPERATOR" the amount of time and the charge for the call. This service requires "OPERATOR" assistance. The call may be either station-to-station or personto-person.

Wide Area Telecommunications Service (Inward WATS)

Station-to-station long distance calls may be made, without charge to you, to those customers who have inward wide area telecommunications service. They offer this service to their customers calling from specific locations. Dial "1" as you do for any long distance call, next area code 800, then the special number of customers who have this service.

Other Special Calls (Dial "OPERATOR")

Conference, Zenith or other calls requiring special handling should be placed with the operator.

general information

Annoying, Harassing and Threatening Calls

Annoying, harassing and threatening phone calls are punishable under state of lowa or Federal law. If you receive such calls, hang up immediately. If they persist get in touch with your Telephone Business Office. Threatening calls should be reported immediately to the police.

Your Telephone Number Is Important

Make it easy for people to reach you. Include your area code and telephone number on business stationery, statements and advertising. It helps others call you faster.

Rates and Regulations

Regulations and rules governing the furnishing of services by your Telephone Company are on file in your Business Office. A representative will be glad to assist you in obtaining information from them.

Customer Provided Equipment

Equipment, apparatus, devices or systems not furnished by the telephone company may be used with the company's facilities provided such use complies with the company's tariffs. Any items used with the company's facilities in violation of the company's tariffs may lead to the removal of the equipment, apparatus, devices or systems or in the suspension of your telephone service. Contact your local telephone company's business office for other information concerning these regulations.

Liability of Telephone Company

Service Interruptions

Northwestern Bell's liability for damages due to mistakes, omissions, interruptions, delays, errors or transmission defects in furnishing service or facilities is limited to an adjustment of charges for the period of time customer service is adversely effected.

The Company will make every reasonable effort to prevent interruptions of service. However, if partial or complete service interruption does occur which is not due to negligence or a willful act by the customer, a prorate

adjustment will be made. The adjustment will cover any fixed monthly or annual charges for service, equipment and facilities affected by interruptions as follows:

- Interruptions extending beyond twentyfour (24) hours*—
 - The Company will voluntarily adjust charges for services and equipment on a prorate basis from the time the interruption is reported or detected until service is restored. If, in the Company's judgment, circumstances prevent a customer from notifying the Company of a service interruption, the requirement for notification to or detection by the Company may be waived. If known by the Company, the period adjusted will begin when the interruption occurred. In all other cases, the period adjusted will begin when the customer first becomes aware of the interruption.
- Interruptions for a period less than twenty-four (24) hours*—
 When reported to the Company, adjustments for outages will be made if, in the Company's judgment, circumstances so warrant.

This tariff is on file with the lowa State Commerce Commission and is also available for review at the Northwestern Bell Business Office.

*Independent telephone company tariffs may specify a different interruption time before a prorated adjustment will be made. This tariff information is available through your independent telephone company business office.

Directory Errors and Omissions

Northwestern Bell's liability due to errors in or omissions of directory listings shall be limited to and satisfied by an amount not exceeding one-half of the local exchange service charges (lines or trunks if PBX-CENTREX) for the service affected for the period from the date of issuance of the directory in which the mistake occurred to the date of issuance of a new directory containing the proper listing.

This tariff is on file with the lowa State Commerce Commission and is also available for review at the Northwestern Bell Business Office.

AMES CIVIC INFORMATION

HISTORY—The village of Ames came into existence in 1864. That same year the Cedar Rapids and Missouri Railroad was extended to the new Story County settlement. This village was named after Oakes Ames, Massachusetts Congressman and railroad promoter, who had financial interest in the C.R. and Mo. R.R.

The presence of state and federal institutions has been a major factor in the growth of Ames. March 18, 1869 marked the formal opening of the "State Agricultural College and Model Farm". Now lowa State University of Science and Technology (the name adopted by the 1959 lowa General Assembly), has an enrollment of approximately 22,000 students.

GOVERNMENT—Ames operates under a Mayor-Council form of government with a City Manager. With this type of city government the City Council consisting of six members sets the policy and the City Manager administers if. The Mayor is elected for a 2-year term. The Mayor presides at Council meetings and is official city host.

PLANNING—The seven City Planning and Zoning Commission members are appointed by the Mayor for five-year terms. Professional assistance is provided by the Planning Division, Department of Community Development. In its functioning, the Commission considers such items as land use, comprehensive planning, zoning, subdivisions, and overall development directed toward the orderly growth of the community. The powers of the Commission are advisory and its recommendation may or may not be adopted by the City Council.

WATER—From the original well with a pump and elevated wooden water tank, the Water Department has grown to a plant capable of producing 10,000,000 gallons of treated water a day. Equipment includes 13 gravel-packed wells, a 1,000,000 gallon capacity water tower, a 750,000 gallon capacity tower, and a 2,000,000 gallon capacity ground storage reservoir. There is an additional ground storage reservoir now under construction that has a 5 million gallon capacity.

MUNICIPAL LIGHT AND POWER PLANT—Ames has had its own municipal light and power plant since 1896. It has been expanded several times to meet the increasing demands of a growing city. The total generating capacity is 80.000 kilowatts.

MARY GREELEY HOSPITAL—A donation from Captain W. M. Greeley in memory of his wife, founded the Mary Greeley Memorial Hospital in 1916. The first addition was built in 1937; the second addition in 1961 brought bed capacity to 160. Another addition completed in 1971 increased the capacity for general acute care for a total of 203 beds.

AIRPORT—The Ames Municipal Airport is located in the south part of the city west of Highway 69. The airport has had direct voice communication with Approach Control in Des Moines since July 1976. The main runway is 3500 feet in length and 100 feet in width.

FINANCIAL—Ames is served by three banks. Bank deposits as of December 1976 amounted to \$120,988,679. There are three savings and loan associations.

COMMUNICATIONS—Ames is served by two local newspapers, one television station, two AM radio stations and three FM radio stations.

PUBLIC SCHOOLS—The school plant is comprised of 16 buildings. Total operation expense for the 1976-1977 year was \$8,991,413.

IOWA STATE UNIVERSITY OF SCIENCE AND TECHNOLOGY— Colleges within the University are Agriculture, Education, Engineering, Graduate, Home Economics, Sciences and Humanities, and Veterinary Medicine.

A Land-Grant institution, Iowa State has a three-fold function:

- Resident instruction on both the undergraduate and graduate levels.
- Extensive programs of research.
 Extension service throughout lowa.

The research and service facilities of the University include the Agriculture and Home Economics Experiment Station, Engineering Research Institute, Center for Agricultural & Rural Development, Computation Center, Home Economics Research Institute, Industrial Relations Center, North Central Regional Center for Rural Development, Nutritional Sciences Council, Physiology Council, Research Institute for Studies in Education, Sciences and Humanities Research Institute, Soil Science Insitute, Veterinary Medical Diagnosite Laboratory, Veterinary Medical Research Institute, Statistical Laboratory, Energy and Mineral Resources Research Institute, Water Resources Research Institute, and the World Food Institute.

The United States Energy Research and Development Administration has a major laboratory for basic research on campus, operated as an integral part of the ERDA.

University enrollment for the fall quarter of 1977 exceeded 22,000; the University staff was approximately 5,500.

University land in Ames and throughout the state totals approximately 7,300 acres. University campus and recreation areas total approximately 1,000 acres

ation areas total approximately 1,000 acres.

The new South Campus includes the \$20 million lowa State Center; a four-building complex, constructed with the use of gifts and student fees; the new football stadium, which was constructed without appropriated funds; and the new Veterinary Medicine Campus.

IOWA DEPARTMENT OF TRANSPORTATION—The lowa Department of Transportation employs over 4,500 people statewide working with various modes of transportation, regulation, and registration. Nearly 1100 of its personnel work in the Ames Complex.

NATIONAL ANIMAL DISEASE CENTER—The principal work of the National Animal Disease Center, a facility of the U. S. Department of Agriculture located in Ames, Iowa, is research on the principal diseases of livestock that occur in the United States. This is conducted by the Agricultural Research Service. About 20 percent of the facilities, however, are used to provide laboratory diagnostic services for some of the Department's disease-control field programs and for the regulation and control of biological products made and sold in inter-state trade by private commercial companies. This is provided by the Animal and Plant Inspection Service. At present the staff consists of 125 professional and scientific workers and 320 nonprofessional employees, a total of 445 persons.

The laboratory was constructed at a cost of \$16,000,000 and the annual operating budget is in excess of \$5,000,000.

TO CALL A PARTY ON YOUR LINE

If on repeated attempts to call a number the line is always busy it may be that the called number is on your line. Or if it is known that the party you wish to call is on your line, and you wish to call that party, proceed as follows:

1. Lift your receiver and listen for dial tone.

2. Dial 99 and directory listed number.

3. After dialing you will hear the busy tone. Then replace your handset. Allow a reasonable length of time for the other party to answer, then pick up your handset and talk.

4. When the party you are calling answers, he will hear a 'ticking' sound which indicates that he should wait for calling party to speak.

5. If the called party does not answer, replace your handset.

How to be a better buyer

Millions of people "Let Their Fingers Do The Walking" and shop the Yellow Pages. They find the Yellow Pages an easy, convenient source of telephone numbers and buying information.

As publishers of the Yellow Pages, we want you to be satisfied with our product and to use it frequently. And we know that the best way to do this is to keep your confidence in our directories. We are proud of our record! We will not knowingly accept misleading or unethical advertising. If copy not meeting our standards is found, it is quickly removed.

To help you get greater value in all your buying, we have listed some good shopping tips which are worth remembering.

Price. Service provided after a sale may affect the selling price. Ask if the selling price included delivery, installation and service charges. Also ask about returns and refunds.

Estimates and Receipts. On major purchases, obtain estimates from more than one company. Receipts should be obtained for all payments, as well as for appliances taken from your home or left for repair.

Service and Repair. Check the cost of service calls by telephone. When the repairman is on the premises, ask for an estimate of the total cost of repair, then get an itemized bill before paying.

Contracts and Credit Details. Don't be rushed into signing a contract if you are unfamiliar or unsure. Ask for a copy to take home for a careful review. Learn the terms, interest rate, and payment plan. Be sure to retain a copy of everything you sign.

Guarantees. All guarantees and promises should be in writing. Find out who is responsible for carrying out the terms of the guarantee. If there is a registration card, be sure to send it in.

We know that you will find Yellow Pages Shopping a rewarding experience.

How to be a better buyer

Price. Service provided after a sale may affect the selling price. Ask if the selling price included delivery, installation and service charges. Also ask about returns and refunds.

Estimates and Receipts. On major purchases, obtain estimates from more than one company. Receipts should be obtained for all payments, as well as for appliances taken from your home or left for repair.

Service and Repair. Check the cost of service calls by telephone. When the repairman is on the premises, ask for an estimate of the total cost of repair, then get an itemized bill before paying.

Contracts and Credit Details. Don't be rushed into signing a contract if you are unfamiliar or unsure. Ask for a copy to take home for a careful review. Learn the terms, interest rate, and payment plan. Be sure to retain a copy of everything you sign.

Guarantees. All guarantees and promises should be in writing. Find out who is responsible for carrying out the terms of the guarantee. If there is a registration card, be sure to send it in.

How to be a better buyer

Price. Service provided after a sale may affect the selling price. Ask if the selling price included delivery, installation and service charges. Also ask about returns and refunds.

Estimates and Receipts. On major purchases, obtain estimates from more than one company. Receipts should be obtained for all payments, as well as for appliances taken from your home or left for repair.

Service and Repair. Check the cost of service calls by telephone. When the repairman is on the premises, ask for an estimate of the total cost of repair, then ge, an itemized bill before paying

Contracts and Credit Details. Don't be rushed into signing a contract if you are unfamiliar or unsure. Ask for a copy to take home for a careful review. Learn the terms, interest rate, and payment plan. Be sure to retain a copy of everything you sign.

Guarantees. All quarantees and promises should be in writing. Find out who is responsible for carrying out the terms of the guarantee. If there is a registration card. be sure to send it in.

Service and Repair. Check the cost of service calls by telephone. When the repairman is on the premises, ask for an estimate of the total cost of repair, then get an itemized bill before paying

Contracts and Credit Details. Don't be rushed into signing a contract if you are unfamiliar or unsure. Ask for a copy to take home for a careful review. Learn the terms, interest rate, and payment plan. Be sure to retain a copy of everything you sign.

Guarantees. All guarantees and promises should be in writing. Find out who is responsible for carrying out the terms of the guarantee. If there is a registration card, be sure to send it in.

How to be a better buyer

Price. Service provided after a sale may affect the selling price. Ask if the selling price included delivery, installation and service charges. Also ask about returns and refunds.

Estimates and Receipts. On major purchases, obtain estimates from more than one company. Receipts should be obtained for all payments, as well as for appliances taken from your home or left for repair.

Service and Repair. Check the cost of service calls by telephone. When the repairman is on the premises, ask for an estimate of the total cost of repair, then get an itemized bill before paying.

Contracts and Credit Details. Don't be rushed into signing a contract if you are unfamiliar or unsure. Ask for a copy to take home for a careful review. Learn the terms, interest rate, and payment plan. Be sure to retain a copy of everything you sign.

Guarantees. All guarantees and promises should be in writing. Find out who is responsible for carrying out the terms of the guarantee. If there is a registration card, be sure to send it in.
